

# GD0800C & GD0810C

6.35mm High Speed &  
Low Speed Die Grinders

750W

**1. Equipped with 6.35mm collet as standard**

Maximum collet size 8mm

**2. Rugged aluminium gear housing**

with great accessibility to difficult to reach spots,  
due to its streamline shape.

**3. Cooling ports**

Air from the cooling ports always blows away  
from the operator.

**4. Speed control dial**

for selecting and setting the ideal speed.

**5. Highly durable cord guard**

**6. Motor design**

Most powerful in its class  
Slim enough to fit palm design housing  
Zigzag and powder coated varnish coating  
on armature and field coil assures high durability  
and protection from grinding dust.

**Electronic control system**

for soft start, and constant speed  
even under load.

**SPECIFICATIONS:**

	<b>GD0800C HIGH SPEED</b>	<b>GD0810C LOW SPEED</b>
