MAKITA ADVANTAGE
- New exterior design features high metal to plastic ratio.
- Employs lightweight rod and balance plate mechanism to reduce vibration dramatically.
- Constant speed control keeps minimizing the speed loss under loaded conditions.
- Soft Start suppresses the shock when starting.
- Rigid Aluminium base can be tilted up to 45°to the left or right.
- Can be connected to vacuum with optional dust nozzle and hose complete 28-5.
- Plastic cover plate can be attached quickly without using tools to protect surfaces of delicate materials such as plastics & decorative veneers.
