

Best possible ergonomic handle for driver-drill applications

**A** In order to provide maximum thrust to the bit, the top back of the handle is ergonomically contoured and widened according to the U-shape formed between user's thumb and index finger.

**B** Ribbed rubber grip enables all finger tips to hold the handle securely against the strong rotational force of counter torque even in single-handed operation.

**All metal gear construction**  
Extra-high transmission durability

**Belt clip and bit holder**  
For right handed users, belt clip on left and bit holder on right, and vice versa for left handed users; each standard accessory can be attached/removed simply by loosening/ fastening a screw.

**Battery fuel gauge**  
The power remaining in the battery can be indicated in 3 stages simply by pushing a button; 3 lights on: more than 50% of full battery capacity 2 lights on: 20% to 50% of full battery capacity 1 light on : less than 20% of full battery capacity

**Battery protector (Option)**  
designed to protect the battery cartridge from dust and dripping water in outdoor applications or harsh environments.

Mode selection ring

Cordless Hammer Driver Drill

Hammer drill Mode

Drill Mode

Screwdriver Mode

Mechanical 2-speed

**Single sleeve keyless chuck**  
allows for easy bit installation/removal by one hand.

**Torque setting ring**  
Wider torque range of 1-10 N.m in clutch mode allows for versatile applications.

## Increased Durability

Enhanced Dust and Drip-resistant  
Performance ensure reliable  
operation even under bad  
weather.

High speed drilling

Twin LED Job light

**XPT**  
EXTREME PROTECTION TECHNOLOGY

## Extremely Compact Tool Size

Allows for easy access to screws in tight places.

## Extreme Protection Technology

For use in outdoor applications or harsh environments,  
protection from dust and dripping water is enhanced  
compared with existing model.

Dust-resistant

Drip-resistant

Since the wall is  
prepared in a vent,  
water and dust are not  
made to enter easily.

Moreover the water  
which has entered is  
discharged outside.

The pictures do not mean to ensure the products are perfectly durable  
against dust and water, though they are designed to prevent dust and  
water ingress.
