Slim and Powerful!

Lightweight and Compact body, reducing operator fatigue in continuous use.

- Newly developed motor (diameter: 82mm)
It ensures
- High power (2,000W)
 - Light weight
 - Slim body of tool

Small gear housing
Makes maximum cutting depth larger.

Rotatable gear housing
Can be positioned at every 90 degrees to suit most cutting and grinding operations.

Large trigger switch

Superior Anti-Dust Structure
Protective zigzag varnish on armature coil.
Protective powder varnish-coating on field coil.
Bearing-protective labyrinth construction.
Vent slots designed to minimize dust entrance.
