

Dust Cup (Option)

Vacuum (Option)

Dust-free work with MAKITA Dust Collection System

Connectable with the hose of Makita vacuum cleaner without joint parts

WITHOUT
Dust Cup and Vacuum Cleaner

- Overhead application: Dust and debris falling on operator's face are disturbing.
- Vertical application: Debris may damage floor surface.
- Downward application: Troublesome cleaning is required to wipe dust and debris away from drilled hole surrounding.

WITH
Dust Cup and Vacuum Cleaner

- Dust cup collects falling dust and debris to protect operator's face.
- With Vacuum cleaner, this dust cup can efficiently extract dust and debris in a wide range of drilling operations; from overhead to vertical downward applications.
- Higher visibility of the bit tip obtained by transparent cup mouth

FREE
FOR A LIMITED TIME ONLY

100 YEAR PROMO

This machine will, for a limited time only, come with a 10 Piece Bit Set.

Double Insulation

Variable Speed

Reversing

SDS-PLUS Shank

Torque Limiter

Dust Collecting

Carrying Case

Combination Hammer (3 mode) HR2630

Adapted for SDS-PLUS bits

325

26mm
800W

Operation Mode	3 Modes
Continuous rating input	800W
Impact energy	2.4J
Capacity	Concrete : 26mm Steel : 13mm Wood : 32mm
Impacts per minute (i/min)	0 - 4,600
No load speed (r/min)	0 - 1,200
Noise	91dB(A)
Vibration	15.5m/s ²
Dimensions (L x W x H)	361x77x209mm
Weight	2.8kg
Power supply cord	2.5m

Standard Equipment : Side Grip, Depth Gauge
(Tool does not come with bit.)

* weight according to EPTA-Procedure 01/2003
Items of standard equipment and specifications may vary by country or area.

Rotary Hammer
HR2630
26mm

SDS-PLUS Shank

3 Operation modes: Hammering, Hammering with Rotation and Rotation Only.

Easy-to-grip handle ergonomically designed to give maximum power thrust.

800W

Easy depth adjustment

Depth gauge can be adjusted with a single motion.

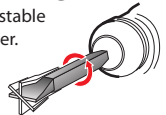

One-touch sliding chuck

for easy bit changes

40 Different bit-angle settings

The bit-angle is adjustable without chisel adapter.

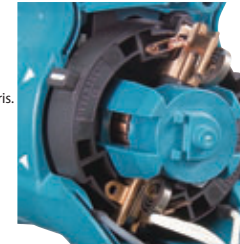

Dust cup (Option)

is suited for interior or overhead drilling where dust exposure must be avoided.

Rotation reversing system using brush holder unit

Features the following advantages:
Protects Carbon Brush from foreign dusts and debris.
Life of Carbon Brush is 2.7 times long as the existing models.
Same speed and torque even in reverse rotation
Saves time and labor for repair thanks to simplified wiring.

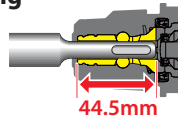

Easy-to-grip handle

ergonomically designed to give maximum power thrust

Minimum bit wobbling

with longer bit guide

Rubberized soft grip

provides more comfort and control.

Operation mode change lever

positioned on the bottom of gear housing for reduced possibility of breakage

Rotation with hammering

Hammering

Rotation (Drill Chuck is option)
