

LC1230

305mm Metal/Cold Cutting Saw 1 750W

SUPERIORITY OF TCT SAW BLADE OVER CUT-OFF WHEEL .

1. Cuts 400% faster than abrasive wheels when cutting angle iron, pipe and tubing.
2. Clean cutting with virtually no burrs on the cut surface, offering a time saving on after-treatment.
3. No sparks or heat, the workpiece surface can be touched after the cut.
4. The saw blade is longer lasting, as it does not wear down like an abrasive wheel.
5. No odour of burning when cutting painted work pieces.

MAKITA ADVANTAGE

- Shaft lock feature for quick and easy blade replacement
- Large "D" handle grip with 2-finger trigger switch and removable safety key
- Removable scrap tray for safe and clean working environment
- Sturdy aluminium base assures greater accuracy and smooth working.
- Quick vice quickly clamps various size work pieces.
- Mitre guide can be adjusted without the need for tools.
- The fence angle can be adjusted simply by loosening the lever.
- The length of the lever is changeable and can be stored in the machine when it is not needed.

SPECIFICATIONS:

Blade diameter	305mm
Maximum cutting capacity	
At 90°	115mm 75mm x 150mm
At 45°	90mm 85mm x 85mm
No load speed	1 300 r/min
Continuous rating input	1 750W
Overall dimensions	516mm L 306mm W 603mm H
Net Weight	19.3kg
Power supply cord	2.5m
Carbon brush	AC203

FEATURES:

Double insulation

STANDARD EQUIPMENT:

Carbide tipped saw blade for mild steel
Socket wrench
Safety goggles

OPTIONAL ACCESSORIES

TCT Blade for cutting mild steel	p/n A-87242
TCT Blade for cutting stainless steel	p/n A-87579
